

**Connectix**  
CABLING SYSTEMS

## Case Study

Sompo International

## Location

United Kingdom

## Introduction

Sompo International is a wholly owned subsidiary of Sompo Holdings Inc., whose core business encompasses one of the largest property and casualty insurance groups in the Japanese domestic market. Their operating subsidiaries have balance sheets comprising high quality assets and ample liquidity to satisfy their obligations to their clients and other stakeholders. Furthermore, they are backed by the financial strength of Sompo Japan Nipponkoa Insurance Company.

## The Requirement

Sompo International corporate UK offices are located out of Minster Court, central London and Live Innovative Solutions (LIS) were appointed during the summer of 2018 to install, test and commission the IT infrastructure for Level 3 of extension works.

The Sompo International fit-out contract was delivered by Faithdean PLC with Connectix Cabling Systems selected for the physical infrastructure as with previous Level 1 and 2 phases. LIS is one of London's fastest growing IT infrastructure installers and has built a reputation based on professional cable infrastructure design, installation and project management.

LIS project managed from start to finish, working closely with Faithdean and engaging with Sompo International IT teams when required to facilitate any last minute onsite challenges. Cabling runs were agreed and first and second fix works completed efficiently on time. LIS engineers completed work area and equipment rack terminating seamlessly and have provided Sompo International with a 25-Year Connectix manufacturers warranty.

## The Installer

Live Innovative Solutions enhances IT operations with seamlessly deployed infrastructure design, installation and project management solutions. As trusted designers and installers of IT cabling infrastructure for enterprise and corporate networks, the team creates converged network solutions in a range of settings. This includes desktop and comms room LAN connectivity, access control and building automation systems, fire detection/suppression systems and security.

***"The Sompo International project is a credible installation to LIS and in particular the professionalism of work ethic on site and the end results of the cabling should be commended."***

Paul Mathews, Connectix Director of Sales (South)

### Project Scope Overview

Customer	Sompo International
Installer	Live International Solutions 
Site Location	Minster Court, London
Requirements	IT Infrastructure for Level 3 of extension works.
Specification	Cat 6a
Active	Cisco
Cu Cabling	671 x Cat 6a UFTP low level cables 36 x high level Cat 6a UFTP cables within basket tray 707 Connectix Cat 6a outlets
Total Meterage	35,116m
Optical Fibre	1 x 12 core OM4 10G inter-cabinet fibre 2 x 24 core OM4 10G diverse fibres between 1st floor MER and 3rd floor MER
Total Meterage	5,054m
UPS	2 x APC 6000kVA and environmental monitoring (temperature and humidity sensor controlled) Project Management of 4 LIS cabling engineers Fluke test results DSX-5
Fit Out Contractor	Faithdean
